

To-DAY Pacific Coast athletes open a grand tournament in San Francisco.

All the athletic clubs of California, Nevada, Oregon, Washington, and Idaho, will participate in the contests which will include the entire circle of games now on the list as tests of muscle, endurance, adroitness, and skill, and very likely some new records will be made by the athletes of the far West.

Our Fall styles are now in open and on display; we have not the space to describe; sufficient to say the largest, grandest and best selected stock in the city is to be seen here. You're interested in the price: \$20 or \$25 gives you choice of 200 suitings to select from; \$5 or \$6 a choice of 150 styles of trouserings.

> The Chief Executive Again Demands the Unconditional Repeal of the Purchase Clause.

An Adjournment of Congress Suggested as a Possible Method of Bringing the White House Boss to Terms-

The Action of Chairman Voorhees in Adjourning the Senate Regarded as a Victory by the Silver Leaders-Another Continuous Session in Progress This Morning. Senator Vest Introduces the Latest Compromise Bill.

WASHINGTON, Oct. 14.-[Bulletin.]-The nate has adjourned

WASHINGTON, Oct. 13.-The president re mains firm for unconditional repeal, and Mr. Voorhees will hold out as long as he can keep up. The failure of the thirty-eight hours' session that was brought to an end early this morning, however, without accomplishing a single result, beyond demonstrating to the contrary that the silver men were capable of staving off a vote on the Voorhees bill indefinitely, has dampened the enthusiasm of the weary and broken repeal senators, and they have returned to the fight disheartened and dis-couraged. Meanwhile the effort to com-promise and to find common ground

goes on.

Senator Harris says that he believes that his party will be able to devise a bill with sufficient unanimity to put it through as a party measure. Senators Pugh and Jones, leading silver men, talked in the same strain. But the repeal leaders are apparently as determined as ever to go forward with the bill unamended.

The Democratic senators have been hold. The Democratic senators have been holding conferences all day in the room of the committee on appropriations and have, it is stated on good authority, almost agreed upon a compromise agreement. It con-tinues the Sherman act in effect for eigh-teen mouths and provides for a limited bond issue. Some of the silver Democrats and all of the silver Republicans are making a vigorous protest against this adjust-ment, and may be able to have it changed. The basis of compromise seems to be the Harris and Vest amendments, but there is a wide difference of opinion as to whether a bond provision should or should not be adopted. If the president continues to reject all propositions looking to a compromise, nothing is left but an adjournment of congress, unspections to be leaders should decide to go ahead and pass a compromise bill and send it to the White House, thus placing the responsibility of vetoing or signing it at President Cleveland's door.

Judging from the outcome of the other continuous session, there is little coance of any practical result from this second attempt to force a vote, even if the senate can be held in session. The basis of compromise seems to be

SiLVER GOSSIP.

Washington, Oct. 13.—The action last night of Mr. Voorhees, leader of the repeal forces in the senate, in throwing up the sponge and asking for an adjournment, the silver senators and compromisers jubilantly assert, is a victory for them. Mr. Voorhees, after a continuous session of the senate for thirty-eight hours and forty minutes, at 1:40 o'clock this morning, was compelled, by the inability of his followers ers to longer stand the terrible strain, to capitulate, temporarily at least, by yielding to an adjournment. He, of course, did it reluctantly and, in asking the adjournment, told the president of the senate that time the Valkyrie was fully 200 yards in the lead of the Vigilant, having caught the mist it was 1:40 o'clock. Mr. Cooper of Texas was heard in favor of his bill to issue \$30,000,000 in United States notes upon a deposit of \$1,000,000 for redemption. He favored the bill because it would increase the currency and destroy national banks.

Mr. Bryan was heard on his bill to secure depositors of national banks, compelling national banks to set aside one-fourth of 1 per cent of their average deposits for the two months preceding Jan. I until a fund of \$10,000,000 was created to pay the depositors of failed banks. The secretary of the treasury is authorized to issue greenbacks to the amount of the special fund in order to prevent the contraction of the currency. Mr. Bryan argued that if the depositor was sure of his money he would not draw it out and it would have the effect of preventing panics,

JACKSON, Mich., Oct. 13.-Twelve people were killed instantly and twenty-one in Michigan Central railroad station here at 9 o'clock this morning. A special excur-sion train, westbound for Chicago, was standing at the station. A second specia excursion train came up under full beadway and crashed into the rear coach of the first train. The rear train completely oped the one ahead of it. The pass engers in the two rear coaches were caught as in a vice. The list of the dead and in jured would be more appailing were it not for the fact that the cars had been nearly empted of their human freight. At the ment the accident occurred the passer gers were taking breakfast at the station The Valkyris Defeated in the Third and eating house. The list of dead is as follows:

THE ATLANTIC STORMS.

JACKSONVILLE, Fls., Oct. 13.—One of the most terrible wind storms ever known is now raging along the Florida coast, extending inland about fifty miles. It has raged in this vicinity for the past two days, gradually increasing in velocity, until today the wind reached sixty miles an hour. All communication south of here is cut off, and great fears are entertained that Titusville and many other places on the coast will suffer great loss of life. Reports from St. Augustine say that the city is partly submerged. The greatest force of the storm was felt near Tamps.

Nothing has been heard from the islands on the Carolina coast since midnight, when the storm was blowing sixty miles per hour. Anxiety is felt for steamers.

JACKSONVILLE, Fls., Oct. 13.—Reports of the storm of yesterday and last night continue to come in and show the damage done to be much greater than was at first supposed. Its track along the cast coast of the state is plainly marked by desolation. The interruption of telegraphic and railroad communication in the casterin part of the state has made it impossible to ascertain any details. Washouts are numerous and the losses to the railroad companies are very heavy.

Reports from New Smyrna state that the storm played havoc with that place, houses being blown away and other damage done. At Pablo Beach, a small seaboard resort, twenty miles from here, houses were blown down and the place flooded. At Mayport, a town at the mouth of the St. John's river, eight houses on the beach were swept away. It is feared that two sons of prominent citizens of this place were drowned.

A special frem St. Augustine states that great damage was done there. The entire city was flooded with three feet of water, many stores and residences being badly damaged. Parts of the sea wall and government barracks were washed and blown away, and a dozen or more bouses to jured. The special also states that a passenger train from the south brings news of much damage along the route. Ormond, New Smyrna, Datonia and Rockledge suffered

SAVANNAH, Ga., Oct. 13.—The beavy blow SAVANNAH, Ga., Oct. 13.—The heavy blow that threatened Savannah was fagged out when it arrived. The maximum velocity of the wind for five minutes recorded was forty-two miles per hour. The storm center passed here between 3 and 4 o'clock this morning without any damage. No reports have been received yet from the coast, but it is not believed that there was any serious loss.

THE SYSTEM PASSES INTO THE HANDS OF RECEIVERS.

The Application Therefor Filed by the Executors of the Late Frederick L. Ames of Boston.

The Company Alleged to be Unable to Most Either Its Current Obligations or Maturing Indebtedness.

Solicitor Thompson Says That the Affairs of the Corporation Will Remain in Charge of the Present Management-President Clark Oue of the Receivers-The Western Passenger Association Interested-General

OMAHA, Oct. 13 .- On a plea in equity, iled in the United States district court here today, Judge Dundy appointed S. H. H. Clark, E. Ellery Anderson of New York and Oliver W. Mink of Boston receivers for the Union Pacific Railway company. The application for recivers was made by the executors of the Frederick L. Ames estate-Oliver Ames (second vice president), Samuel Carr, Edwin F. Atkins and Peter B. Wyckoff. The announcement of the application and the appointment of the receivers came simultaneously just be-fore I o'clock p. m. The bonds of the re-

ceivers were fixed at \$50,000 each. ceivers were fixed at \$50,000 each.

At the headquarters of the road the blow has been expected ever since the meeting of the board of directors on the 10th inst. In the application it is stated that at the last annual meeting, on April 26, the statement of the funded, or bonded, debt showed that on Dec. 1, 1892, the company had outstanding bonds and notes for \$7,682,735, of which \$50,692,635 were affect, and this the complainant acts forth is and this the complainant sets forth is about the present condition of affairs, ex-cept that the subsidy indebtedness to the government is not included in the amount named. There is coming due a large balance of the subsidy bonds, now about

named. There is coming due a large balance of the subsidy bonds, now abous \$15,000,000.

The liabilities of the company, as shown on April 26, including capital stock and surplus, are \$255,431,061.92. The details of the indebtedness are specifically stated and the bill sees on to say:

"Your orators allege, on information and belief, that the defendant is indebted for labor and material, due and unpaid on the 1st day of October, 1895, and amounting to the sum of \$1,500,000, or thereshouts, on which, if not paid or provided for, said company is liable to innumerable saits, attachments and judgments; that the gross earnings for the Union Pacific system from the operation thereof, and from other property, for the business year ending Dec 31, 1892, amounted to the sum of \$46,573,295.39, that the total transpertation expenses, rentals, interest, sinking fund and other charges paid during the same year amounted to \$44,505,538.35, isaving a surplus for said year of \$2,089,736.74. Your orstors further allege that, as appears from the statement made by the financial and accounting officers of said Union surplus for said year of \$2,000,756.74. Your orstors further allege that, as appears from the statement made by the financial and accounting officers of said Union Pacific Railway company of said Union Pacific Railway company of said Union Pacific system and other corporations of said system, for the eight months ending Aug 31, 1805, there has been a falling off of the gross earnings of said system for said eight months, as compared with the same menths of the precoding year of about 43, 154,000 and a falling off in the net revenues of said system for the same cight months, as compared with the same periol of the preceding year, of about the sum of \$2,558,000."

The complainants make the statement that the sinking fund charges are matured on the outstanding bonds and will continue to be due, tog-ther with interest, at the rate of about \$1,000,000 a month.

"Your crators further surer that there has been a further failing off in the gross earnings of said system for the month of September of the preceding year."

Concluding, the bill alleges that the defendant company is insolvent, and cannot, without the appointment of receivers as prayed for, avoid becoming further involved.

Speaking for General Manager Dickinger (General Solicitar Thompson said:

"The country has been waiting. Merchants who have obligations to meet cannot always wait, and for some there has come misfortune. Speculators and traders wait because they have no substantial basis for judgment. The volume of business transacted increases some, because the longer people go without necessaries the more certain the demand is to revive. The government crop reports have not helped speculation, because they are not harmony with the prevaiting judgments. Wheat has weakened 1½ cents and corn has advanced 1½ cents would be very much atronger if men put full confidence in official estimates. Oil has risen I cent. Coffee and cotton are unchanged.

"Cotton goods show a general improvement in tone, though weak in spots. The demand for wonlen goods is not one-third of the usual magnitude. Outside of New York the boot and shoe factories are but poorly employed.

"The failures for the past week number 394 in the United States, against 189 last twenty-six last year. The aggregate of the liabilities in the failures for the first week in October was only 84,891,292, though the number was large. This week the liabilities have apparently decreased."
